

00 — START HERE

Read Me First

Your complete orientation guide to v2.0

VERSION 2.0 · 2025

Bookkeeper Practice Launch System · Premium Edition · Commercial Use Included

Welcome to the Bookkeeper Practice Launch System

Version 2.0 · Premium Edition

Congratulations on your purchase. You now have everything you need to launch, operate, and grow a professional bookkeeping practice — from your first prospect call to a fully systematized monthly close workflow.

Start Here First

This is a complete operating system — not just templates. Every file connects to the others. Read this guide before opening anything else.

What You Received

Folder	Contents	Purpose
00-START-HERE	Read Me First, Installation Guide, Asset Manifest	Setup and orientation
01-Quick-Reference	License, FAQ, Version History, Support Guide	Reference & compliance
02-Practice-Dashboard	Excel v2.0 with 10 sheets + KPI dashboard	Daily operations hub
03-Client-Documents	5 premium client-facing templates	Sales & onboarding
04-Operations-Library	3 internal SOP & communication files	Delivery & quality
05-Notion-Workspace	7 CSV databases + Notion setup guide	Digital workspace

Your 90-Minute Launch Sequence

Step 1 — Read this file completely (10 min)

Understand the system before customizing anything.

Step 2 — Open the Installation Guide (5 min)

Follow the setup checklist in 00-START-HERE/Installation-Guide.pdf.

Step 3 — Customize the Dashboard (20 min)

Open 02-Practice-Dashboard/Bookkeeper-Practice-Dashboard-v2.xlsx. Fill in the yellow Setup cells: your practice name, services, pricing tiers, and close schedule. The Dashboard sheet auto-updates from your data.

Step 4 — Customize Client Documents (25 min)

Replace all [BRACKETED TEXT] in the 5 files inside 03-Client-Documents. Start with the Service Guide — it sets the tone for all others.

Step 5 — Set Up Notion Workspace (15 min)

Follow the Notion-Setup-Guide.pdf inside 05-Notion-Workspace. Import all 7 CSV files and connect them using Notion relations.

Step 6 — Add test data and review (15 min)

Add 2-3 sample clients and prospects to the Dashboard and Notion. Run the pricing calculator. Confirm everything flows correctly.

Important

Do not skip the Installation Guide. It contains important customization checklists and software compatibility notes that will save you hours.

How the System Connects

Every component in this system is designed to hand off to the next. Here is the complete client lifecycle flow:

Stage	Tool Used	File
Prospect arrives	Lead Pipeline (Dashboard)	Bookkeeper-Practice-Dashboard-v2.xlsx
Qualify lead	Client Intake Form	Client-Intake-and-Onboarding-Pack-v2.docx
Send proposal	Proposal Template + Deck	Bookkeeping-Proposal-Template-v2.docx
Sign agreement	Engagement Agreement	Bookkeeping-Engagement-Agreement-v2.docx
Onboard client	Onboarding Pack + CRM	Client-Intake-and-Onboarding-Pack-v2.docx
Monthly close	Monthly Close Checklist	Bookkeeper-Practice-Dashboard-v2.xlsx
Deliver reports	Client Portal (Notion)	Client-Portal.csv + Notion
Send communications	Script library	Client-Communication-Scripts-v2.docx
