The Bookkeeper's Unfair Advantage: Credentials

Credentials are the fastest way to overcome the trust barrier with new clients. Three worth getting:

- * QuickBooks Online ProAdvisor (free): The most recognized credential. Gets you listed in Intuit's Find-a-ProAdvisor directory
- * Bookkeeper Launch Certified: Ben Robinson's program is the industry standard for trained bookkeepers
- * Enrolled Agent (advanced): Allows you to represent clients before the IRS and significantly expand your service menu

Pricing with Confidence

Most new bookkeepers underprice. Here's the framework to price right from day one:

- * Track your time for your first 3 clients. Calculate your effective hourly rate
- * Target minimum \$60/hour effective rate. Most experienced bookkeepers achieve \$80-120/hour
- * Quote retainers, not hourly. Clients prefer predictable monthly fees
- * Your first client might be at a discount. Your third client should be at full rate
- * Never apologize for your prices. Confidence in pricing is confidence in your service
