

Notion Workspace

Setup Guide

Step-by-step guide to importing and configuring your mortgage broker Notion workspace.

HOW TO IMPORT CSV DATABASES INTO NOTION

STEP-BY-STEP IMPORT INSTRUCTIONS

1. Open Notion and create a new page
2. Type /import and select 'CSV'
3. Upload the CSV file from the 10_NOTION_WORKSPACE folder
4. Notion will create a database with the CSV headers as properties
5. Review the property types and adjust as needed (see the field map CSV)
6. Repeat for each CSV file in the 10_NOTION_WORKSPACE folder
7. Create relations between databases using the Relation property type
