How to get help, report issues, and access updates

Support Guide

How to get help, report issues, and access product updates.

CHECK FAQ FIRST
Before contacting support, check FAQ.pdf in 01-Quick-Reference. Most setup, customisation, and formula questions are answered there.

01 / 04 SUPPORT CHANNELS

Channel	Use For	Response Time
Etsy Messages (primary)	All support requests, questions, customisation help, and issues	1–3 business days
Etsy Order Page	Re-download requests and download access issues	Immediate (automated)
Etsy Reviews	Product ratings and feedback — not for support queries	Not monitored for support

Use Etsy Messages for all support. Include your order number.

02 / 04 WHAT TO INCLUDE IN A SUPPORT REQUEST

Including the right information upfront reduces resolution time from multiple messages to one.

Required Detail	Example
Product name and version	Bookkeeper Practice Launch System v2.0
File name that has the issue	Bookkeeper-Practice-Dashboard-v2.xlsx
Software being used	Microsoft Excel 365, Windows 11
What you expected to happen	Dashboard KPI cards should show client count and MRR
What actually happened	All KPI cards show zero even after adding 2 clients
Steps already attempted	Checked Instructions tab; confirmed Status column says Active

Complete this checklist before sending a support message

03 / 04 COMMON ISSUES — SELF-HELP

Issue	Solution	Affected File(s)
Excel formulas show #REF! or #NAME?	Enable macros if prompted; press Ctrl+Alt+F9 to force full recalculation	Dashboard XLSX
Word document appears unstyled or plain	Install Poppins and Inter fonts free from Google Fonts, then reopen the file	All DOCX files
Notion CSV import has misaligned columns	Use Import → CSV in Notion — do not copy-paste. Map column types manually after import	All 7 CSV files

PDF will not open or displays incorrectly	Open with Adobe Acrobat Reader (free) or in Chrome browser	All PDF files
Download appears incomplete	Re-download from Etsy Purchases. Ensure the ZIP file is fully extracted before opening	Full product ZIP
PPTX looks wrong in Google Slides	Font substitutions are normal. Reapply Poppins via Slide menu after import	Proposal Deck PPTX
Notion relations not appearing	Relations must be created manually after import — they cannot be imported from CSV	All Notion CSVs

Exhibit 1 · Common self-service fixes — resolve most issues without contacting support

04 / 04 REFUND AND UPDATE POLICY

Refunds: Due to the digital nature of this product, refunds are generally not available after download. If a verified technical defect cannot be resolved through support, contact via Etsy and we will work with you to find a solution.

Updates: Minor updates — formatting corrections, content fixes — are provided free to existing buyers. Major version upgrades (e.g., v2.x, v3.0) may be offered at a discount. Check your Etsy purchase page for notifications.

LEAVE A REVIEW

If this product helped you, please leave a review on Etsy. Reviews help other bookkeepers find the system and support ongoing product development.
