ABOUT THIS WORKBOOK

Your 90-Day Agency Growth Roadmap

This workbook is your personal planning tool to map, execute, and track the growth of your Social Media Management Agency. It is structured around the three phases every successful SMM agency goes through — from landing your first client to running a fully scalable operation.

Work through each section with a pen. Fill in your targets, your timelines, and your action steps. Return to it every 30 days and update your progress. The agencies that grow fastest are not the ones with the most talent — they are the ones with the clearest plan.

WHERE ARE YOU NOW?

PHASE 1 — DAYS 1–30

Foundation: Land Your First Paying Clients

The first 30 days are about one thing only: getting a paying client. Not perfecting your brand, not building a website, not designing logos. Revenue first. Everything else follows.

STEP 1 — DEFINE YOUR NICHE

The biggest mistake new SMM agencies make is trying to serve everyone. Pick one industry. Know it better than any generalist. Charge premium prices because of your specialization.

1

Choose Your Niche Industry

Select ONE industry you will specialize in for the next 90 days. You can expand later. Specialization = higher prices + easier sales.

2

Define Your Ideal Client Profile (ICP)

Who exactly is your best client? Business size, revenue, team size, location, platforms they use, pain points they have.

3

Research 20 Target Businesses

Find 20 businesses in your niche that match your ICP. Log them in your Lead Tracker Google Sheet (included in this bundle).

My Niche Industry:

Why I Chose This Niche:

Ideal Client — Business Type:

Ideal Client — Monthly Revenue Range:

Ideal Client — Key Pain Point:

Ideal Client — Primary Platform:

STEP 2 — PACKAGE & PRICING

Price based on VALUE delivered, not hours worked. Clients pay for results. Use the Pricing Calculator Sheet in this bundle to calculate your minimum viable rate, then build 3 tiers.

Monthly Price	€ _____	€ _____	€ _____
Posts/Month	_____	_____	_____

Platforms

Max Clients (you)			

PHASE 2 — DAYS 31–60

Momentum: Systematize Delivery & Build MRR

By Day 30 you should have 2–3 paying clients. Now the goal is to build the systems that let you serve them well, keep them long-term, and upsell them — without working 80-hour weeks.

STEP 4 — CLIENT DELIVERY SYSTEM

Every client gets the exact same experience. Systematize everything: onboarding, reporting, communication, content creation. This is what separates agencies that scale from freelancers who stay stuck.

Your Client Delivery Workflow
Week 1: Onboarding call → Brand audit → Content strategy document
Week 2: First content batch → Client approval → Schedule & publish
Week 3: Community management + engagement → Mid-month check-in
Week 4: Monthly report → Invoice → Feedback call → Plan next month
→ Fill in YOUR specific workflow below:

My Week 1 Deliverable:

My Week 2 Deliverable:

My Week 3 Deliverable:

My Week 4 Deliverable:

My Report Delivery Day:

My Invoice Day:

STEP 5 — RETENTION & UPSELL STRATEGY

Retaining a client for 12 months is worth 12x a single month's revenue. Focus relentlessly on client results. When results come, upsell to bigger packages.

Month 1	Deliver wow results	Add 2nd platform	_____
Month 2	Client feels supported	Add Reels/Stories	_____
Month 3	Review + renew contract	Upgrade to Growth pkg	_____

Month 6	Deep partnership	Ads management add-on	_____
Month 12	Annual retainer renewal	Agency tier / referrals	_____

My target MRR by Day 60: € _____ Target number of clients: _____

PHASE 3 — DAYS 61–90

Scale: Build a Team & Hit €10K/Month

By Day 60 you should have 4–6 clients and €2,000–€4,000 MRR. Phase 3 is about removing yourself as the bottleneck. Hire, delegate, automate, and grow your revenue while working fewer hours.

STEP 6 — YOUR FIRST HIRE

The most common mistake is hiring too late. As soon as you hit 80% capacity, start hiring. Your first hire should take over your most time-consuming task — usually content creation.

1

Identify Your Biggest Time Drain

Track your hours for 1 week. What task takes the most time? That is your first hire.

2

Write a Job Description

Use the Team Scaling templates in this bundle. Be specific: tools they need, deliverables per week, pay rate.

3

Hire on Upwork or Fiverr First

Test 2–3 freelancers with a paid trial task. Only hire long-term the person who nails it.

4

Build an Onboarding SOP

Document exactly how you want work done. Use your SOP Handbook (Workbook 2) as a template.

My Biggest Time Drain:

First Role to Hire:

Budget for First Hire (€/month):

Hire-by Date:

Platform to Find Talent:

Trial Task I Will Give Them:

STEP 7 — €10K/MONTH REVENUE MAP

Map your exact path to €10,000 MRR. This requires clarity on how many clients at what packages.

Option A	10 clients	Starter @ €1,000	1–2 freelancers	_____
Option B	5 clients	Growth @ €2,000	2–3 freelancers	_____

Option C	3 clients	Agency @ €3,500	3–4 freelancers	_____
MY PATH	____ clients	€ ____ avg.	____ people	_____

MONTHLY REVIEW

End-of-Month Reflection Template

Use this template at the end of every month. Honest reflection separates growing agencies from stagnant ones. Print and complete 3 copies for your 90-day sprint.
