

Notion Workspace Setup Guide — Bookkeeping Business OS

OVERVIEW

Your Notion workspace keeps every client, deadline, task, and document request organized in one place — accessible from any device, always current.

DATABASES INCLUDED

- Clients_Database.csv — All client accounts, services, fees, and software
- Tasks_Database.csv — Daily and recurring task management
- Monthly_Deadlines_Database.csv — Track every close and filing deadline
- Document_Requests_Database.csv — Outstanding documents per client
- Services_Database.csv — Your service menu and pricing guide
- SOP_Library.csv — All your standard operating procedures

IMPORT STEPS

1. Open Notion → New Page → Import → CSV
2. Upload each CSV file and rename to match the page names
3. Open NOTION_WORKSPACE_SETUP.md for relation and view setup
4. Build your Dashboard page with linked views for today's tasks, deadlines, and pending documents

RECOMMENDED FIRST WEEK SETUP

- Day 1: Import all 6 databases
- Day 2: Create relations between Tasks, Clients, and Monthly Deadlines
- Day 3: Set up board view for Tasks (grouped by Priority)
- Day 4: Set up calendar view for Monthly Deadlines
- Day 5: Build your Dashboard page with linked views
